

## GE Transportation Fort Worth Assembler Position

GE offers a great work environment, professional development, challenging careers, and competitive compensation. GE is an Equal Opportunity Employer. Employment decisions are made without regard to race, color, religion, national or ethnic origin, sex, sexual orientation, gender identity or expression, age, disability, protected veteran status or other characteristics protected by law.

### **Assembly may include but is not limited to the following:**

- The sub-assembly of components and full assembly of finished
- The installation and/or connection of wiring harnesses and associated Electronic components
- The installation and/or connection of piping and associated plumbing components
- The set up and completion, of various simple welding operations
- Testing of assembly components for oil and/or air leaks, simple electrical malfunctions and various other simple testing. Repairs to be made when failures are detected
- The use of standard machine tools including, but not limited to drill press, band saw, lathe, press breaks, laser, pipe bender, spot welder etc., and a variety of hand, electric, and pneumatic tools will be required
- Paint applications will include, but not limited to dry sanding, masking, unmasking, finish paint, stencil, seal and touch up
- Material transport may include the use of but not limited to radio controlled cranes, forklifts and tuggers
- Prying and setting heavy equipment
- Work with all facility employees on improving manufacturing processes through prototyping, fabrication and experimental machining to develop and prove concepts and design and implement necessary fixtures and tooling for manufacturing improvements
- Promote climate of cooperation; leading by example mentoring others in quality, safety, environmental, lean and high performance work team philosophies

All assemblers will perform multiple tasks in any combination and concentration of the above mentioned areas and will rotate through all or most of the processes rather than being assigned to a specific task. Assemblers must be able to work as part of a team having responsibility for assembling numerous components and other duties as assigned.
